

# Bulk Regulations

for spaces 20ft. and more in depth

Please check-off each of the boxes below to indicate that you have read, understand, and agree to comply to the regulation.

★ **Diagram with dimensions MUST be submitted for those exhibits with exceptions to the following booth regulations:**

If you are constructing a booth, please be reminded that all backwalls and sidewalls must be finished **on both sides**, including product.

**Floor covering is required for 100% of your contracted booth space.** Please note that the removal of flooring adhesive is the responsibility of the exhibitor. Failure to do so properly will result in a charge of \$2/ft. of adhesive requiring removal. Double-sided cloth tape is recommended.

Raised flooring should be bevelled or caution taped for safety.

All product and booth material must remain within the confines of your allocated booth space and square footage.

**Hand rendered signs are not permitted.**

If you wish to hang signage, it must be hung in the centre of your booth (depth-wise) rather than the back or side, where it will impact your neighbouring exhibitor. It must be no more than 14' to the top of the sign and a minimum of 8' high to the bottom of the sign.

**Written permission must be received from show management for any exceptions to these regulations, including signage and peaks. On site at the show, management will request revisions to booths that do not adhere to these regulations.**

Due by  
Feb. 24,  
2017

Please review, sign, and return a copy of this form to indicate your understanding of the above regulations and agreement to comply.
